#### **I. NEW BUSINESS**

---

20. ITEM – Consider reimbursement agreement between MLHD and the People's Moss Landing Desal Project/Nader Agha.

- a. Staff report – GM McIntyre gave the staff report.
- b. Public comment – Mr. Paul Hart, attorney for the Peoples Moss Landing Desal Project, said that he believes they have reached agreement on all terms except the time frame for return of funds requested by the Board. District Counsel Rodriguez commented that a minor modification could be made to accept 30 days as a doable timeline should no further agreement or partnership be entered into. Mr. Bill Hood, resident of Moss Landing, reiterated the issue giving rise to the need for retaining the reimbursement deposit in the event of a third party claim but suggested that

any applicable statutes of limitation in the agreement should be named and clarified (this comment followed the Board discussion).

c. Board discussion – Commissioner Gideon asked what the project timeline looked like to which Mr. Agha responded they are within weeks of providing the engineer's information that needs to be included in the draft EIR. He added the Governor is now getting involved in the project and that he has been asked if the project and property would be for sale to the State. Mr. Agha said they will only work with the District and offered to sell 15-20 acres and all rights to the project to the District for fair market value. President Jeffries said before we go any further, we need to settle the reimbursement agreement and reiterated that this agreement does not obligate any further agreements but only sets forth reimbursement for staff and counsel time spent and that may be spent negotiating a potential agreement. Mr. Hart responded it is understood that this is a reimbursement agreement and nothing more; this is merely a first step and does not obligate the District to do anything. Mr. Agha said I will give it to you for free. Then he added that we could get bond financing to pay him back. Commissioner Gomes said the Board needs to stay neutral and Mr. Agha just offered to give us property – this is what I have been afraid of – we do have other people trying to do a desal plant and they may need our help also. I am concerned that we have not yet made a decision on any partnership agreement and I don't want you to have the impression that we are signing on to your project because we are not. When you said you would give us property it seems in your mind that you do think we have signed on to your project and it's too early for that decision. President Jeffries mentioned that DWD had informed us that they would be coming to the Board for permits, leases or construction permits for their project so yes; we have to remain neutral and flexible. Mr. Rodriguez also reiterated that the agreement before the Board only establishes a means for reimbursing the District and it does not commit the District to any course of action. Mr. Rodriguez added that he anticipated that any subsequent agreements would include language that supersedes this reimbursement agreement. Commissioner Gideon reiterated that the District has a small staff and limited time. He wants to make sure we are compensated accordingly. Commissioner Gomes said he had a final question for District Counsel: this money and this agreement do not compromise our neutrality at all? District Counsel responded that this reimbursement agreement is very similar to other agreements with other public entity clients where the developer comes in and advances monies to pay for staff time and processing his project with no guarantee of the final outcome.

d. Board action – A motion was made by Commissioner Ferrante and seconded by Commissioner Gomes to accept the terms of the reimbursement agreement as amended. The motion passed 4-0-1: President Jeffries, Commissioner Gideon, Commissioner Ferrante and Commissioner Gomes voting aye; Commissioner Leonardini absent.

President Jeffries requested of Mr. Agha and Mr. Hart that the Board be provided a specific and direct list of expectations, A to Z, duties and tasks that will be asked of the District. I don't want it piecemeal, I don't want you coming back with additions or changes; the Board wants to know where we are and where we may be going. Mr. Hart said he will confer with the GM and District Counsel on how to present the information clearly and completely. President Jeffries said that earlier Mr. Agha made an offer in all good faith that he would sell us the property or give us the property but doesn't want any money now. I want to see that in writing. And I just

want to reiterate again that if it doesn't work out and we can't come to an agreement that we would still part as friends and neighbors and there's no hard feelings either way. Mr. Agha asked that the Real Property Committee remain intact so the points of the proposal can be presented to that Committee and they can help make the presentation to the Board. President Jeffries said yes. Commissioner Ferrante said the operative word is "transparency".

21. ITEM – Consider authorizing the General Manager to execute documents for refunding and consolidating the District's debts at a lower interest rate.

a. Staff report – GM McIntyre gave the staff report. She added that after her report was written, she received further information that the bank that made the offer has stated they will only set a rate for ten years.

b. Public comment – No public comment.

c. Board discussion – There was discussion of the terms of the refinancing agreement. It appears at this time, with this offer; the savings would be approximately \$12K per year and would also resolve balloon payment terms of current District loans.

d. Board action – The Board advised the GM to move forward and continue to bring proposals to the Finance committee and the full Board if necessary.

#### **J. COMMISSIONERS COMMENTS AND CONCERNS**

---

There was further discussion of the concern over entering into agreements. Commissioner Gomes asked that all further negotiations on The People's Desal Project be done in front of the full Board and Commissioner Ferrante agreed. Discussion of how to proceed with negotiations. Recommended that the General Manager and District Counsel make initial contacts on all proposals and then bring to the full Board for discussion and decision.

#### **K. ADJOURNMENT**

---

The meeting adjourned at 8:46 p.m.

Respectfully Submitted,
